

I sound just like my parents.

I want to apply Biblical principles but how?

I am not a baby anymore!

Moms and Dads,

I can't believe this is happening! What can be done?

That isn't how I do it. My way is better.

Do any of these sentiments sound familiar? If so, there's a book for that!

Parenting Books are tools that can:

Remove negative patterns and replace them with effective ones.

Offer timely solutions to today's parenting challenges

Increase parental unity so children feel more secure.

Provide perspective into the present and a vision for the future.

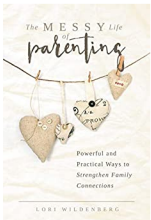

Demonstrate how to apply God's word to raising kids.

Christian parenting books assist you and I in our quest to parent intentionally, to be the parent God created us to be, and to be the parent your child and mine needs.

With faith, hope, and love,

Lori
